Subject Index

Agricultural engineering

Controlled Agricultural Drainage to Maintain Water Quality, J. W. Gilliam and R. W. Skaggs, IR Aug. 86 p254-263.

Agriculture

Environmental Impacts of Irrigation Projects, Rameshwar, D. Verma, IR Nov. 86 p322-330.

Alfalfa

Rational Use of the FAO Blaney-Criddle Formula, Richard G. Allen and William O. Pruitt, IR May 86 p139-155.

Algae

Mechanisms and Process Parameters of Filter Screens, Avner Adin and Ciora Alon, IR Nov. 86 p293-304.

Anisotropy

Artesian and Anisotropic Effects on Drain Spacing, A. S. Bazaraa, M. S. Abdel-Dayem, A. Amer and L. S. Willardson, IR Feb. 86 p55-64.

Aquifers

Clogging of Recharge Wells by Suspended Solids, Adel F. Bichara, IR Aug. 86 p210-224.

Artesian pressure

Artesian and Anisotropic Effects on Drain Spacing, A. S. Bazaraa, M. S. Abdel-Dayem, A. Amer and L. S. Willardson, IR Feb. 86 p55-64.

Border irrigation

Derivation of Lewis-Kostiakov Intake Equation, Yu-Si Fok, IR May 86 p164-171.

Simple Model of Border Irrigation, D. B. Jaynes, IR May 86 p172-184.

Surface Irrigation Optimization Models, Eduardo A. Holzapfel, Miguel A. Marino and Jesus Chavez-Morales, IR Feb. 86 p1-19.

Canals

Canal Capacities for Demand under Surface Irrigation, Albert J. Clemmens, IR Nov. 86 p331-347.

Microcomputer Simulation of Canal Operation, Douglas L. Hamilton and Johannes J. DeVries, IR Aug. 86 p264-273.

Capacity

Canal Capacities for Demand under Surface Irrigation, Albert J. Clemmens, IR Nov. 86 p331-347.

Clays

Effects of Clay-Solution Interactions on Water Retention, Robert J. Lenhard and Royal H. Brooks, IR Feb. 86 p28-38.

Clogging

Clogging of Recharge Wells by Suspended Solids, Adel F. Bichara, IR Aug. 86 p210-224.

Mechanisms and Process Parameters of Filter Screens, Avner Adin and Ciora Alon, IR Nov. 86 p293-304.

Comparative studies

A Penman for All Seasons, Richard G. Allen, IR Nov. 86 p348-368.

Computer models

Microcomputer Simulation of Canal Operation, Douglas L. Hamilton and Johannes J. DeVries, IR Aug. 86 p264-273.

Computerized simulation

Microcomputer Simulation of Canal Operation, Douglas L. Hamilton and Johannes J. DeVries, IR Aug. 86 p264-273.

Crop yield

Sprinkler Irrigation Project Design with Production Functions, Richard G. Allen, IR Nov. 86 p305-321.

Demand

Demand Irrigation Schedule Pilot Project: Sri Lanka, John L. Merriam and Grant G. Davids, IR Aug. 86 p185-202.

Developing countries

Demand Irrigation Schedule Pilot Project: Sri Lanka, John L. Merriam and Grant G. Davids, IR Aug. 86 p185-202.

Environmental Impacts of Irrigation Projects, Rameshwar, D. Verma, IR Nov. 86 p322-330.

Discharge coefficients

Discharge Characteristics of Flow Past a Floor Slot, Amruthur S. Ramamurthy and Mysore Satish, IR Feb. 86 p20-27.

Lateral Weirs in Trapezoidal Channels, Amruthur S. Ramamurthy, Udoyara S. Tim and Luis B. Carballada, IR May 86 p130-137.

Discharge measurement

Modified, Trapezoidal Venturi Channel, Willi H. Hager, IR Aug. 86 p225-241.

Drainage systems

Controlled Agricultural Drainage to Maintain Water Quality, J. W. Gilliam and R. W. Skaggs, IR Aug. 86 p254-263.

Electrical conductivity

Predicting EC For Drainage Water Management, P.-S. Tsui and J. C. Guitjens, IR Aug. 86 p274-281.

Environmental impacts

Environmental Impacts of Irrigation Projects, Rameshwar, D. Verma, IR Nov. 86 p322-330.

Evapotranspiration

Consumptive Use and Water Requirement of Soybeans, S. P. Bhardwaj, IR May 86 p157-163.

A Penman for All Seasons, Richard G. Allen, IR Nov. 86 p348-368.

Rational Use of the FAO Blaney-Criddle Formula, Richard G. Allen and William O. Pruitt, IR May 86 p139-155.

Sprinkler Irrigation Project Design with Production Functions, Richard G. Allen, IR Nov. 86 p305-321.

Filters

Mechanisms and Process Parameters of Filter Screens, Avner Adin and Ciora Alon, IR Nov. 86 p293-304.

Flow characteristics

Discharge Characteristics of Flow Past a Floor Slot, Amruthur S. Ramamurthy and Mysore Satish, IR Feb. 86 p20-27.

Lateral Weirs in Trapezoidal Channels, Amruthur S. Ramamurthy, Udoyara S. Tim and Luis B. Carballada, IR May 86 p130-137.

Flow patterns

Modified, Trapezoidal Venturi Channel, Willi H. Hager, IR Aug. 86 p225-241.

Frequency distribution

On Frequency Distribution of Raindrop Sizes, Rafael G. Quimpo and Ali B. Brohi, IR May 86 p119-129.

Furrow irrigation

Derivation of Lewis-Kostiakov Intake Equation, Yu-Si Fok, IR May 86 p164-171.

Surface Irrigation Optimization Models, Eduardo A. Holzapfel, Miguel A. Marino and Jesus Chavez-Morales, IR Feb. 86 p1-19.

Groundwater

Using Radar for Groundwater Investigation, Sun F. Shih, Jim A. Doolittle, Don L. Myhre and Greg W. Schellentrager, IR May 86 p110-118.

Groundwater management

Groundwater Management Institutions in Kansas, John C. Peck, IR Aug. 86 p203-209.

Hydraulic conductivity

Artesian and Anisotropic Effects on Drain Spacing, A. S. Bazaraa, M. S. Abdel-Dayem, A. Amer and L. S. Willardson, IR Feb. 86 p55-64.

Hydraulic roughness

Roughness Coefficients for Routing Surface Runoff, Edwin T. Engman, IR Feb. 86 p39-53.

Hydrology

Consumptive Use and Water Requirement of Soybeans, S. P. Bhardwaj, IR May 86 p157-163.

Infiltration

Derivation of Lewis-Kostiakov Intake Equation, Yu-Si Fok, IR May 86 p164-171.

Simple Model of Border Irrigation, D. B. Jaynes, IR May 86 p172-184.

Time of Concentration of Overland Flow, A. Osman Akan, IR Nov. 86 p283-292.

Irrigation

Consumptive Use and Water Requirement of Soybeans, S. P. Bhardwaj, IR May 86 p157-163.

Irrigation efficiency

Emitter Spacing and Geometry of Wetted Soil Volume, M. Schwartzman and B. Zur, IR Aug. 86 p242-253.

Irrigation scheduling

Demand Irrigation Schedule Pilot Project: Sri Lanka, John L. Merriam and Grant G. Davids, IR Aug. 86 p185-202.

A Penman for All Seasons, Richard G. Allen, IR Nov. 86 p348-368.

Surface Irrigation Optimization Models, Eduardo A. Holzapfel, Miguel A. Marino and Jesus Chavez-Morales, IR Feb. 86 p1-19.

Irrigation systems

Environmental Impacts of Irrigation Projects, Rameshwar, D. Verma, IR Nov. 86 p322-330.

Microcomputer Simulation of Canal Operation, Douglas L. Hamilton and Johannes J. DeVries, IR Aug. 86 p264-273.

Optimal Water Management Strategies for Salinity Control, N. K. Tyagi, IR May 86 p81-97.

Sprinkler Irrigation Project Design with Production Functions, Richard G. Allen, IR Nov. 86 p305-321.

Irrigation water

Stochastic Modeling of Irrigation, Ram K. Gupta and Harinder S. Chauhan, IR Feb. 86 p65-76.

Kansas

Groundwater Management Institutions in Kansas, John C. Peck, IR Aug. 86 p203-209.

Kinematic wave theory

Time of Concentration of Overland Flow, A. Osman Akan, IR Nov. 86 p283-292.

Land development

Controlled Agricultural Drainage to Maintain Water Quality, J. W. Gilliam and R. W. Skaggs, IR Aug. 86 p254-263.

Least squares method

Practical Land Grading Based on Least Squares, Edmar J. Scaloppi and Lyman S. Willardson, IR May 86 p98-109.

Leveling

Practical Land Grading Based on Least Squares, Edmar J. Scaloppi and Lyman S. Willardson, IR May 86 p98-109.

Linear programming

Sprinkler Irrigation Project Design with Production Functions, Richard G. Allen, IR Nov. 86 p305-321.

Lysimeters

A Penman for All Seasons, Richard G. Allen, IR Nov. 86 p348-368.

Mathematical models

Time of Concentration of Overland Flow, A. Osman Akan, IR Nov. 86 p283-292.

Microcomputers

Microcomputer Simulation of Canal Operation,

Douglas L. Hamilton and Johannes J. DeVries, IR Aug. 86 p264-273.

Numerical models

Simple Model of Border Irrigation, D. B. Jaynes, IR May 86 p172-184.

Open channel flow

Discharge Characteristics of Flow Past a Floor Slot, Amruthur S. Ramamurthy and Mysore Satish, IR Feb. 86 p20-27.

Microcomputer Simulation of Canal Operation, Douglas L. Hamilton and Johannes J. DeVries, IR Aug. 86 p264-273.

Modified, Trapezoidal Venturi Channel, Willi H. Hager, IR Aug. 86 p225-241.

Optimization

Sprinkler Irrigation Project Design with Production Functions, Richard G. Allen, IR Nov. 86 p305-321.

Optimization models

Surface Irrigation Optimization Models, Eduardo A. Holzapfel, Miguel A. Marino and Jesus Chavez-Morales, IR Feb. 86 p1-19.

Overland flow

Roughness Coefficients for Routing Surface Runoff, Edwin T. Engman, IR Feb. 86 p39-53.

Time of Concentration of Overland Flow, A. Osman Akan, IR Nov. 86 p283-292.

Peak runoff

Controlled Agricultural Drainage to Maintain Water Quality, J. W. Gilliam and R. W. Skaggs, IR Aug. 86 p254-263.

Ponding

Simple Model of Border Irrigation, D. B. Jaynes, IR May 86 p172-184.

Radar

Using Radar for Groundwater Investigation, Sun F. Shih, Jim A. Doolittle, Don L. Myhre and Greg W. Schellentrager, IR May 86 p110-118.

Rainfall intensity

On Frequency Distribution of Raindrop Sizes, Rafael G. Quimpo and Ali B. Brohi, IR May 86 p119-129.

Time of Concentration of Overland Flow, A. Osman Akan, IR Nov. 86 p283-292.

Recharge wells

Clogging of Recharge Wells by Suspended Solids, Adel F. Bichara, IR Aug. 86 p210-224.

Regional planning

Groundwater Management Institutions in Kansas, John C. Peck, IR Aug. 86 p203-209.

Return flow

Optimal Water Management Strategies for Salinity Control, N. K. Tyagi, IR May 86 p81-97.

Roughness coefficients

Roughness Coefficients for Routing Surface Runoff, Edwin T. Engman, IR Feb. 86 p39-53.

Salinity

Effects of Clay-Solution Interactions on Water Retention, Robert J. Lenhard and Royal H. Brooks, IR Feb. 86 p28-38.

Environmental Impacts of Irrigation Projects, Rameshwar, D. Verma, IR Nov. 86 p322-330.

Optimal Water Management Strategies for Salinity Control, N. K. Tyagi, IR May 86 p81-97.

Saturation

Effects of Clay-Solution Interactions on Water Retention, Robert J. Lenhard and Royal H. Brooks, IR Feb. 86 p28-38.

Simulation

Canal Capacities for Demand under Surface Irrigation, Albert J. Clemmens, IR Nov. 86 p331-347.

Soil permeability

Derivation of Lewis-Kostiakov Intake Equation, Yu-Si Fok, IR May 86 p164-171.

Soil water

Consumptive Use and Water Requirement of Soybeans, S. P. Bhardwaj, IR May 86 p157-163.

Derivation of Lewis-Kostiakov Intake Equation, Yu-Si Fok, IR May 86 p164-171.

Emitter Spacing and Geometry of Wetted Soil Volume, M. Schwartzman and B. Zur, IR Aug. 86 p242-253.

Sprinkler Irrigation Project Design with Production Functions, Richard G. Allen, IR Nov. 86 p305-321.

Soybeans

Consumptive Use and Water Requirement of Soybeans, S. P. Bhardwaj, IR May 86 p157-163.

Spacing

Artesian and Anisotropic Effects on Drain Spacing, A. S. Bazaraa, M. S. Abdel-Dayem, A. Amer and L. S. Willardson, IR Feb. 86 p55-64.

Sprinkler irrigation

Sprinkler Irrigation Project Design with Production Functions, Richard G. Allen, IR Nov. 86 p305-321.

Stochastic models

Stochastic Modeling of Irrigation, Ram K. Gupta and Harinder S. Chauhan, IR Feb. 86 p65-76.

Subsurface drainage

Artesian and Anisotropic Effects on Drain Spacing, A. S. Bazaraa, M. S. Abdel-Dayem, A. Amer and L. S. Willardson, IR Feb. 86 p55-64.

Predicting EC For Drainage Water Management, P.-S. Tsui and J. C. Guitjens, IR Aug. 86 p274-281.

Surface drainage

Practical Land Grading Based on Least Squares, Edmar J. Scaloppi and Lyman S. Willardson, IR May 86 p98-109.

Surface irrigation

Canal Capacities for Demand under Surface Irrigation, Albert J. Clemmens, IR Nov. 86 p331-347.

Practical Land Grading Based on Least Squares, Edmar J. Scaloppi and Lyman S. Willardson, IR May 86 p98-109.

Simple Model of Border Irrigation, D. B. Jaynes, IR May 86 p172-184.

Surface runoff

Roughness Coefficients for Routing Surface Runoff, Edwin T. Engman, IR Feb. 86 p39-53.

Suspended solids

Clogging of Recharge Wells by Suspended Solids, Adel F. Bichara, IR Aug. 86 p210-224.

Trapezoidal channels

Lateral Weirs in Trapezoidal Channels, Amruthur S. Ramamurthy, Udoyara S. Tim and Luis B. Carballada, IR May 86 p130-137.

Trickle irrigation

Emitter Spacing and Geometry of Wetted Soil Volume, M. Schwartzman and B. Zur, IR Aug. 86 p242-253.

Mechanisms and Process Parameters of Filter Screens, Avner Adin and Ciora Alon, IR Nov. 86 p293-304.

Unsteady flow

Microcomputer Simulation of Canal Operation, Douglas L. Hamilton and Johannes J. DeVries, IR Aug. 86 p264-273.

Water consumption

Consumptive Use and Water Requirement of Soybeans, S. P. Bhardwaj, IR May 86 p157-163.

Rational Use of the FAO Blaney-Criddle Formula, Richard G. Allen and William O. Pruitt, IR May 86 p139-155.

Water demand

Canal Capacities for Demand under Surface Irrigation, Albert J. Clemmens, IR Nov. 86 p331-347.

Stochastic Modeling of Irrigation, Ram K. Gupta and Harinder S. Chauhan, IR Feb. 86 p65-76.

Water distribution

Effects of Clay-Solution Interactions on Water Retention, Robert J. Lenhard and Royal H. Brooks, IR Feb. 86 p28-38.

Water management

Demand Irrigation Schedule Pilot Project: Sri Lanka, John L. Merriam and Grant G. Davids, IR Aug. 86 p185-202.

Optimal Water Management Strategies for Salinity Control, N. K. Tyagi, IR May 86 p81-97.

Predicting EC For Drainage Water Management, P.-S. Tsui and J. C. Guitjens, IR Aug. 86 p274-281.

Water quality control

Controlled Agricultural Drainage to Maintain Water Quality, J. W. Gilliam and R. W. Skaggs, IR Aug. 86 p254-263.

Predicting EC For Drainage Water Management, P.-S. Tsui and J. C. Guitjens, IR Aug. 86 p274-281.

Water table

Using Radar for Groundwater Investigation, Sun F. Shih, Jim A. Doolittle, Don L. Myhre and Greg W. Schellentrager, IR May 86 p110-118.

Waterborne diseases

Environmental Impacts of Irrigation Projects, Rameshwar, D. Verma, IR Nov. 86 p322-330.

Weather data

Rational Use of the FAO Blaney-Criddle Formula, Richard G. Allen and William O. Pruitt, IR May 86 p139-155.

Weirs

Lateral Weirs in Trapezoidal Channels, Amruthur S. Ramamurthy, Udoyara S. Tim and Luis B. Carballada, IR May 86 p130-137.
